

BACK TO SCHOOL PORTAL

AUTOMATED BACK TO SCHOOL WEBSITE PORTAL

Are you missing out on thousands of dollars?

Did you know many news agencies, just like you, don't tap into the highly lucrative 'back to school' market?

Each year, schools request that parents provide an increasingly extensive list of stationery items averaging over \$100 per child - they could be shopping with you.

Now let us show you how you can save time and money with a simple online Back to School website portal & shopping cart.

With Signature Software, we take the stress out of back to school by creating a simple to use process for both you and for time-poor parent shoppers.

The benefits for you:

Comprehensive admin area with extensive, customisable reporting capabilities including:

- Easy to load products and multiple schools
- Suitable for both primary and secondary school booklists
- Parents do the data entry as they place their orders
- Easily manage stock levels to fulfill orders
- Live stock level reporting
- Install on your website or have one created for you

Sell other products to schools and parents all year round, not just booklists. No fuss installation and set up by experienced and friendly team on hand to support you.

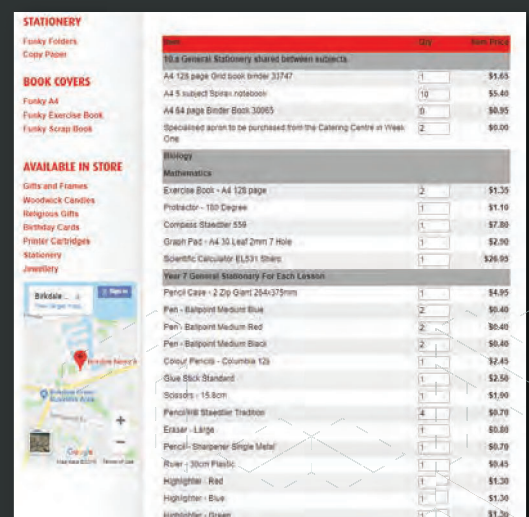

The advantages for parents:

Simple and time-saving system - parents log on to your website, select their corresponding school list, add items to cart, shop other stock items as required, place the order and make payment.

Makes it easy for parents to 'shop local'

Saves time and stress of shopping with kids in tow!

Guaranteed to buy the correct items the first time.

The screenshot displays a web interface for a stationery store. It features a sidebar with categories like 'STATIONERY', 'BOOK COVERS', and 'AVAILABLE IN STORE'. The main content area shows a list of products with columns for 'Item', 'Qty', and 'New Price'. The products include various stationery items such as folders, binders, calculators, and writing instruments.
